

ERIC HEINZ

DEVELOPER

ericTempler@googlemail.com

+49 151 - 59895486

Profile

Full Name	Eric Dominic Heinz
Birthday	09 September 1990
Address	Im Bienengarten 25, 55218 Ingelheim, Germany
Languages	German (Native), English (C1)

Skills

Teamwork

I have worked in Teams of various sizes across multiple Orgs. Most of the time in close contact, as if I would share an office with them.

Software Testing

Testing is critical for every non trivial software and therefore best implemented as early as possible. Robust testing enables a bugfree Application.

Agile Methods

I am accustomed to work in an agile environment and had the opportunity to guide other teams in this regard.

I am of the opinion that this is one of the best methods for backend developing.

New Technologies

New Technologies, like currently LLMs, should always be evaluated and integrated into the Product or Toolchain, if useful of cause.

University

Graduation

Bachelor of Science in Informatik
at Gutenberg Universität Mainz

Nebenfach: BWL

Bachelor Thesis

- Visualisierung von Volumendaten mithilfe der Oculus Rift

Specialization

- Client-/Serverseitige Webanwendungen
- Operating Systems
- Mobile Computing
- Artificial Intelligence

Seminars

- Angewandte Algorithmik
- Approaching Programming Contests

Professional Experience

C/C++	Docker	Go / Golang
PHP	Behat/Gherkin	Typescript/Javascript
C#	Python	

Knowledge of

AI Systems / Theory	Linux / Unix	MySQL
Java	HTML 5.0 / CSS	Lua
Bash	Clean Code & TDD	Agile Environments

Frameworks

React	PyTest	Laravel
Unity	QT	Node.js

Interests

Virtual Reality	Theoretical computer science	Carnivorous Plants
Retrocomputing	Simulation	

Presentations

Speaker at GPN24

07 June 2026

Talk about some unusual and unexpected parts in various programming languages with my colleague Matheus Gagno Brunetti: How to reverse access Arrays, fun about floats, redefining constants on the fly, and more.

media.ccc.de/v/gpn24-578-three-languages-triple-the-confusion

Experience

Backend Developer at Bewotec GmbH

October 2026 - Currently Employed

Backend C# Developing/Maintenance of the E-Commerce Backend Rest API

Tasks:

- Fixing of customer found bugs
- Maintenance of Systems

Languages:

C#

Backend Developer at Link11 GmbH

2023 - August 2026

Free to work after September 01

Backend C and Python programming and maintenance of main cloudbased DDOS detection/defending application and internal support

Tasks:

- Fixing of customer found bugs
- Maintenance/Developing of internal tools, e.g. Agile Sprint Analyse
- Internal engineering and tooling workshops
- Maintenance of Systems

Languages:

C/C++, PHP, Python, Javascript (React for Frontend, Node.js for Backend), Perl, Bash

Junior (Backend) Developer at NFON AG

2016 - 2023

Backend api programming in PHP for a Cloud-based telephone system and supporting/developing internal Tools. Also Testing with Behat

Tasks:

- Fullstack Developer for internal Tools
- Backend API Design of the telephone system
- Reimplementaion of old Services in Golang

Languages:

PHP, Python, Javascript, Golang, C#

Fullstack Developer at eTermio GmbH

2014 - 2015

Fullstack (Frontend/Backend/DB) for a Online-Calender-App

Tasks:

- Fullstack (Frontend/Backend/DB) Development
- API Design
- Communication between customer and internal Databases and E-Mail composition

Languages:

PHP, Python, Javascript

Working Student Developer at eTermio GmbH

2013 - 2014

Working Student (Frontend/Backend/DB) for a Online-Calender-App

Languages:

PHP, Python, Javascript

Studied Informatik B.Sc. at Gutenberg Universität Mainz

2010 - 2015

Programming of an Onlinevoting-System at my University, also some other Courseworks

Languages:

PHP, Java, C/C++, Haskell

Abitur

2010

General University Entrance Qualification
